

COSMOS

DECORATIVE PORCELAIN TILES

The COSMOS collection recaptures a desire for embellishment making it more contemporary and the terracotta cement look is dignified by the hexagonal form which is enforced by the classic 200x200mm size of the tile. The 3 warm and 3 cold hues broaden across the entire chromatic range to create personalised ambiances that are perfect for any environment. The decorations on the standard 200x200mm tile, as well as the hexagonal tile, extend from the geometrical to the stylised floral motif. These create extremely decorative ambiances which, at the same time, can remain minimalist. The patterns are able to be mixed, creating an endless number of combinations.

Project Suitability

All project types Internal walls & floors
Commercial Projects
Retail & Hospitality
Residential, Renovation & New Build
