The Disc collection reimagines classic mosaic design through a modern circular format. Featuring small, perfectly rounded glass tiles, this curated range delivers a clean, flowing aesthetic that softens spaces while adding texture and depth. Inspired by traditional penny mosaics, each tile measures approximately coin-sized and is arranged in a seamless repeating pattern, creating a uniform yet visually dynamic surface. Crafted from high-quality glass, Disc mosaics reflect light beautifully, enhancing brightness and bringing movement to walls, splashbacks, and feature areas. Ideal for bathrooms, shower floors, kitchen splashbacks, and decorative feature walls, the collection offers excellent versatility. The small format allows easy installation on curves and irregular surfaces, making it perfect for both residential and commercial interiors. Whether you're creating a subtle textured backdrop or a bold statement surface, Disc mosaics provide a timeless balance of geometry, softness, and contemporary design.
